Index of Synonyms

Most of the organizations from this State had some name derived from local influences or causes, and were for times almost entirely known by these names. A list of these designations is here attached to facilitate the finding of numerical designations of an organization, when only its synonym is known. The list also gives the names of organizations not accepted, not completed, never numbered, or consolidated with others. Organizations of the National Guard of the State are entered generally under the head, "Militia."
